4. If the Authority, having regard, in particular, to any representations made to it by the licensee and other persons as to the extent to which there is competition in relation to either metering or meter reading and its view on that question, considers it appropriate that references to either the provision of metering services or of meter reading services should be deleted from the definition of “transportation business” contained in

paragraph 2 for the purpose of this condition, those references shall cease to have effect from the date or dates specified in a notice published by the Authority for that purpose.

Standard Special Condition A7: Requirement to Enter into Transportation Arrangements in Conformity with the Network Code

1. Except in a case in which the Authority accepts otherwise, the licensee shall only enter into transportation arrangements which are in conformity with any relevant provisions of the network code.
2. **NOT USED**
3. **NOT USED**
4. If and in so far as the Authority so consents, this condition shall have effect as if the definition of “transportation arrangements” in Standard Special Condition A3 (Definitions and Interpretation) referred only to gas consisting wholly or mainly of methane.
5. The licensee shall comply with any obligation in the network code to disclose information relating to:
 - (i) the operation of the pipe-line system to which this licence relates; or
 - (ii) any market relating to the pipe-line system to which this licence relates.

Standard Special Condition A8: Emergency Services and Enquiry Service Obligations

1. The licensee shall:-
 - (a) establish, or procure the establishment of, and subsequently operate and maintain, or procure the subsequent operation and maintenance of, in co-ordination with all other gas transporters a single continuously manned telephone service for use by any person, with the facilities mentioned in paragraph 2, for the receipt of reports and the offering of information, guidance or advice about any matter or incident that:
 - (i) causes danger or requires urgent attention, or is likely to cause danger or require urgent attention, in relation to the supply of gas conveyed through pipes; or
 - (ii) involves the escape of gas from a network or from a gas fitting supplied with gas from a network (where the reference to an escape of gas from a gas fitting includes a reference to an escape or emission of carbon monoxide gas resulting from incomplete combustion of gas in such a fitting);
 - (b) arrange with other gas transporters for the information contained in reports received by that service of escapes of gas in respect of which the licensee may have any obligations to be given without delay to the licensee; and
 - (c) secure adequate publicity for the service and its telephone number, having regard, in particular, to the special needs of blind or partially sighted persons.
2. The facilities referred to in paragraph 1(a) shall include facilities for deaf or partially hearing persons which will assist them (if they have the equipment enabling them to take advantage thereof) to use the service.
3. The service established by the licensee in accordance with paragraph 1(a) shall:
 - (a) except for any charge applied by a user's telephone operator to 0800 numbers, be provided without charge by the licensee to the user at the point of use;
 - (b) ensure that all reports and enquiries are processed in a prompt and efficient manner; and

- (c) be available to receive and process telephone reports and enquiries at all times on every day of each year.
- 4. In the establishment and operation of the service in accordance with paragraph 1 the licensee shall not discriminate between any persons or class or classes thereof.
- 5. In the establishment and operation of the service in accordance with paragraph 1 the licensee shall not restrict, distort or prevent competition in the supply of gas.
- 6. The licensee shall prepare and submit a statement setting out details of the service to be provided in accordance with paragraph 1, and the licensee shall give or send a copy of such statement to any person requesting it.
- 7. The licensee shall take steps to inform users of the service of any change to the telephone number of the service established in accordance with paragraph 1 as soon as is practicable prior to such change becoming effective.
- 8. Subject to paragraph 9, the licensee shall make arrangements which will secure that in preventing an escape of gas in any premises to which it conveys gas (or, where it conveys gas to any primary sub-deduct premises, in any secondary sub-deduct premises to which the gas is subsequently conveyed):
 - (a) the prevention is effected, so far as it is reasonably practicable and safe to do so:
 - (i) in such a way as to maintain the supply of Gas to those premises and to appliances designed for use by domestic customers for heating or cooking; and
 - (ii) by carrying out any appropriate minor repairs to appliances;
 - (b) the prevention is effected, so far as is reasonably practicable, by a person adequately trained to recognise signs of leakage of carbon monoxide and instructed to report any such signs to the owner or occupier of the premises; and
 - (c) if further repair work is required, information is given to the owner or occupier of the premises or, in their absence, left at the premises, as to persons in the locality who are members of a class of persons permitted pursuant to regulations

under the Health and Safety at Work etc Act 1974 to perform repairs on gas fittings.

9. Nothing in paragraph 8(a) shall oblige the licensee to carry out any work which cannot be completed within 30 minutes of entering the premises for the purpose of preventing the escape or would use materials costing more than £4.65, adjusted in accordance with standard condition 27 (Adjustment of Amounts by Reference to the Retail Price Index) by reference to the day on which the premises were entered for that purpose.
10. **NOT USED**
11. **NOT USED**
12. Except in the case of changes reasonably consequential upon an extension or a restriction of its licence, which are made with effect from the effective date of the extension or the restriction, the licensee shall not make any material change in the arrangements referred to in paragraph 8 except with the consent of the Authority.
13. The licensee shall use its best endeavours to ensure, so far as is reasonably practicable, that it conducts itself towards domestic customers in conformity with the arrangements referred to in paragraph 8.
14. Paragraph 15 shall apply in relation to relevant customers (defined in paragraph 21) and the premises of relevant customers.
15. The licensee shall ensure, so far as is reasonably practicable in the circumstances, having regard to the over-riding importance of safety, that where for reasons of safety (not being reasons relating solely to particular premises or a particular locality), the supply of gas to any relevant customer or the conveyance of gas to that customer's premises needs to be interrupted, reduced or restricted, the licensee shall:
 - (a) when making such a request of a relevant supplier or shipper as is mentioned in paragraph 1 of standard condition 16 (Pipe-Line System Security Standards) of the standard conditions of gas suppliers' licences or paragraph 2 of standard condition 5 (Obligations as Respects Emergencies etc) of the standard conditions of gas shippers' licences;
 - (b) when telling a relevant customer that he should refrain from using gas, in pursuance of such a term of that customer's contract for the supply of gas as is

mentioned in paragraph 4(b) of standard condition 16 (Security and emergency arrangements) of the standard conditions of Gas Suppliers' licences; or

(c) when interrupting, reducing or restricting the conveyance of gas, give priority to the maintenance of the supply of gas to, and the conveyance of gas to the premises of, relevant customers or classes of relevant customers in accordance with, and to the extent specified in the list required by paragraph 17, and (to the extent that they supersede or supplement such list) such directions as may from time to time have been given by the Secretary of State under paragraph 19 or 20.

16. Where the reasons of safety referred to in paragraph 15 relate to the whole or a substantial part of Great Britain or there is a significant shortage of gas affecting the whole or a substantial part of Great Britain, the licensee shall so far as is reasonably practicable in the circumstances having regard to the over-riding importance of safety:

- (a) (i) consult the network emergency co-ordinator; or
- (ii) where the licensee is the network emergency co-ordinator, inform and if appropriate consult the Secretary of State,

on the taking of any such steps as are mentioned in sub-paragraph (a) or (b) of that paragraph; and

(b) shall do so before taking any such steps.

17. The licensee, if licensed under section 7(2)(a) of the Act, shall:

- (a) unless it has done so before being so licensed, establish a list of relevant customers who should be given priority as respects the maintenance of a supply of gas and the maintenance of the conveyance of gas to their premises; and
- (b) as often as is appropriate, review the list, and so far as appears appropriate, amend it, after consultation with all relevant shippers which appear to the licensee to have an interest in the proposed amendment, and, without prejudice as aforesaid, shall conduct such a review and make any such amendments on being directed so to do by the Secretary of State.

18. When the licensee establishes, reviews or amends any list established under paragraph 17, it shall comply with any direction given by the Secretary of State as to:
 - (a) the classes of relevant customers on which the list is to be based;
 - (b) any other criteria on which the list is to be based;
 - (c) any other customers or classes of customers specifically required to be included in the list; and
 - (d) the nature and extent of any priority which will be given to any relevant customer or class of relevant customer as specified in the list.
19. The licensee shall comply with any directions given by the Secretary of State for the purposes of this condition generally requiring priority to be given, in such manner and to such extent as may be specified in the directions, to the maintenance of the supply of gas to, and the conveyance of gas to the premises of, one or more relevant customers or classes of relevant customers.
20. Any question arising under this condition as to whether a particular relevant customer is required to be included in the list established, reviewed or amended under paragraph 17 shall be determined by the Secretary of State.
21. In this condition:
 - (a) “**network emergency co-ordinator**” shall be construed in the same manner as that term is construed in the Gas Safety (Management) Regulations 1996; and
 - (b) “**relevant customer**” includes:
 - (i) any person who is supplied by a relevant supplier with gas conveyed to a particular supply point at a rate which is reasonably expected to exceed 732,000 kilowatt hours a year, to the extent that the terms on which that person is supplied permit such supply to be interrupted or reduced only in pursuance of such a term as is mentioned in paragraph 4 of standard condition 16 (Pipe-Line System Security Standards) of the standard conditions of gas suppliers’ licences or in pursuance of directions given under section 2(1)(b) of the Energy Act 1976; and

- (ii) any person mentioned in any direction given by the Secretary of State in relation to paragraph 18(c) of this condition.
- 22. References in this condition to the maintenance of supply or conveyance of gas include references to the resumption of such supply or conveyance following its interruption or reduction.
- 23. Charges for the provision of services under this condition shall be set at a level which will allow the licensee to recover no more than its reasonable costs and a reasonable profit in providing this service.

Standard Special Condition A9: Pipe-Line System Security Standards

1. The licensee shall, subject to section 9 of the Act, plan and develop its pipe-line system so as to enable it to meet, having regard to its expectations as to –
 - (a) the number of premises to which gas conveyed by it will be supplied;
 - (b) the consumption of gas at those premises; and
 - (c) the extent to which the supply of gas to those premises might be interrupted or reduced (otherwise than in pursuance of such a term as is mentioned in paragraph 4 of standard condition 16 (Security and emergency arrangements) of the standard conditions of gas suppliers' licences or of directions given under section 2(1)(b) of the Energy Act 1976) in pursuance of contracts between any of the following persons, namely, a gas transporter, a gas shipper, a gas supplier and a customer of a gas supplier,the gas security standard mentioned in paragraph 2.

2. The gas security standard referred to in paragraph 1 is that the pipe-line system to which this licence relates (taking account of such operational measures as are available to the licensee including, in particular, the making available of stored gas) meets the peak aggregate daily demand, including, but not limited to, within day gas flow variations on that day, for the conveyance of gas for supply to premises which the licensee expects to be supplied with gas conveyed by it –
 - (a) which might reasonably be expected if the supply of gas to such premises were interrupted or reduced as mentioned in paragraph 1(c); and
 - (b) which, (subject as hereinafter provided) having regard to historical weather data derived from at least the previous 50 years and other relevant factors, is likely to be exceeded (whether on one or more days) only in 1 year out of 20 years, so, however, that if, after consultation with all gas suppliers, gas shippers and gas transporters, with the Health and Safety Executive and with Citizens Advice and Consumer Scotland, the Authority is satisfied that security standards would be adequate if sub-paragraph (b) were modified by the substitution of a reference to data derived from a period of less than the previous 50 years or by the substitution of some higher

probability for the probability of 1 year in 20 years, the Authority may, subject to paragraph 3, make such modifications by a notice which –

- (i) is given and published by the Authority for the purposes of this condition generally; and
- (ii) specifies the modifications and the date on which they are to take effect.

3. Paragraph 2(b) shall only be modified if, at the same time, the Authority makes similar modifications to –

- (a) paragraph 1A(a) of Standard Special Condition A11 (Network Code); and
- (b) sub-paragraph (b) of the definition of “security standards” in standard condition 1 (Definitions and Interpretation) of the standard conditions of gas shippers’ licences.

4. For the purposes of paragraph 1, the licensee may have regard to information received from the operator of a pipe-line or pipe-line system to which it conveys gas as respects the quantity of gas which it expects to require.

Standard Special Condition A11: Network Code and Uniform Network Code

Transportation Arrangements

1. The licensee shall establish transportation arrangements, pursuant to paragraphs 3 and 6 of this condition which, in respect of matters other than those to which the UNC charging methodologies relate, are calculated, consistent with the licensee's duties under section 9 of the Act, to facilitate the achievement of the following objectives –
 - (a) the efficient and economic operation of the pipe-line system to which this licence relates;
 - (b) so far as is consistent with sub-paragraph (a), the coordinated, efficient and economic operation of (i) the combined pipe-line system, and/ or (ii) the pipe-line system of one or more other relevant gas transporters;
 - (c) so far as is consistent with sub-paragraphs (a) and (b), the efficient discharge of the licensee's obligations under this licence;
 - (d) so far as is consistent with sub-paragraphs (a) to (c) the securing of effective competition:
 - (i) between relevant shippers;
 - (ii) between relevant suppliers; and/or
 - (iii) between DN operators (who have entered into transportation arrangements with other relevant gas transporters) and relevant shippers;
 - (e) so far as is consistent with sub-paragraphs (a) to (d), the provision of reasonable economic incentives for relevant suppliers to secure that the domestic customer supply security standards are satisfied as respects the availability of gas to their domestic customers;

- (f) so far as is consistent with sub-paragraphs (a) to (e), the promotion of efficiency in the implementation and administration of the network code and/or the uniform network code;
- (g) compliance with the Regulation and any relevant legally binding decisions of the European Commission and/or the Agency for the Co-operation of Energy Regulators; and
- (h) in relation to:
 - (i) the connection charging methodology, the relevant objectives listed in paragraph 5 of Standard Condition 4B; or
 - (ii) the charging methodologies regulated by Standard Special Condition A5, the relevant objectives listed in paragraph 5 of Standard Special Condition A5.

1A. In paragraph 1 sub-paragraph (e), “domestic customer supply security standards” means, subject to paragraph 1B,

- (a) the availability of a supply of gas which would equal the peak aggregate daily demand for gas by the relevant gas supplier’s current domestic customers which, having regard to historical weather data derived from at least the previous 50 years and other relevant factors, is likely to be exceeded (whether on one or more days) only in 1 year out of 20 years; and
- (b) the availability of supplies of gas-
 - (i) over a year which would equal the aggregate annual demand for gas by those customers; and
 - (ii) over the first six months of a year which would equal the aggregate demand for gas by those customers during such a six month period,which, in each case, having regard to such data as aforesaid and other relevant factors, is likely to be exceeded only in 1 year out of 50 years.

1B. For the purposes of paragraph 1A, “daily” means over a period beginning at 5am on one day and ending immediately before 5am on the following day and “year” means a period of 12 months beginning with 1 October; and if, after consultation with all gas suppliers, gas shippers and gas transporters, with the Health and Safety Executive and Citizens Advice and Consumer Scotland, the Authority is satisfied that the domestic supply security standard would be adequate if paragraph 1A were modified-

- (a) by the substitution, in paragraph 1A(a) or (b), of a reference to data derived from a period of less than the 50 previous years;
- (b) by the substitution in paragraph 1A(a) of a higher probability than the 1 in 20 years mentioned in that paragraph; or
- (c) by the substitution in paragraph 1A(b) of a higher probability than the 1 in 50 years mentioned in that paragraph,

the Authority may, subject to paragraph 1C, make such modifications by notice which-

- (i) is given and published by the Authority for the purposes of this condition generally; and
- (ii) specifies the modifications and the date on which they are to take effect.

1C. Paragraph 1A(a) shall only be modified if, at the same time, the Authority makes similar modifications to-

- (a) paragraph 2(b) of Standard Special Condition A9 (Pipe-Line System Security Standards); and
- (b) sub-paragraph (b) of the definition of “security standards” in standard condition 1 (Definitions and Interpretation) of the standard conditions of gas shippers’ licences

2. Not used.

 - (b) the network code modification procedures established pursuant to paragraph 7 to the extent that such procedures differ from those set out in the uniform network code following Authority consent pursuant to paragraph 8

and the licensee shall furnish the Authority with a copy thereof.

4. Where the holder of this licence also holds, in the same legal entity, one or more other gas transporter licences for relevant gas transporters, it may apply to the Authority for written consent to prepare a single network code in respect of the pipe-line systems to which those licences relate, which consent may be granted subject to such conditions as the Authority may direct.

- 12. The requirements of paragraph 11 apply only in respect of goods and services received or supplied for the purposes of the businesses referred to in Part A above.
- 13. Unless the Authority so specifies in directions issued for the purposes of this condition, or with the Authority's prior written consent, the licensee must not in relation to the regulatory accounts prepared in respect of any financial year change the bases of charge, apportionment, or allocation referred to in paragraph 11 from those applied in respect of the immediately preceding financial year.
- 14. Where the licensee has, in accordance with paragraph 13 above, changed its bases of charge, apportionment, or allocation or changed any of its accounting policies or the manner of their application from those adopted for the immediately preceding financial year, the licensee must, if so directed by the Authority, in addition to preparing regulatory accounts on the changed bases that it has adopted, also prepare such regulatory accounts by reference to the bases, accounting policies, and manner of application that applied in respect of that immediately preceding financial year.

Part E: Consistency with Statutory Accounts

- 15. Regulatory accounts and information prepared under Parts C and D above must, so far as is reasonably practicable and except so far as the Authority otherwise consents, having regard to the purposes of this condition:
 - (a) have the same content and format as the most recent or concurrent statutory accounts of the licensee prepared under Part 15 of the Companies Act 2006; and
 - (b) comply with all relevant accounting and reporting standards currently in force under the applicable accounting frameworks as set out in Part 15 of the Companies Act 2006.
- 16. This paragraph applies if the regulatory accounts are group accounts of the licensee's gas transportation business, including those aspects of the business carried on in relevant affiliates, and for which there are no comparable statutory accounts of the licensee prepared under Part 15 of the Companies Act 2006.
- 17. Where paragraph 16 applies, the licensee must prepare a statement that:
 - (a) reconciles the regulatory accounts to its most recent or concurrent statutory accounts and containing appropriate explanation of all reconciling items; and

- (b) has been audited and reported upon by the appropriate auditor engaged under Part F below.
18. The statement referred to in paragraph 17 must be submitted to the Authority by 31 July after the end of the financial year to which the regulatory accounts relate, but is otherwise exempt from the requirements of Part I below.

Part F: Audit and delivery of regulatory accounts

19. Unless the Authority otherwise consents, the licensee must:
- (a) procure an audit by an appropriate auditor of such parts of its regulatory accounts and the directors' report and business review as would be specified in the Companies Act 2006 as being required to be so audited if the licensee were a quoted company and those accounts were the statutory accounts of the licensee drawn up to 31 March each financial year and prepared under Part 15 of the Companies Act 2006;
 - (b) procure a report by that auditor, addressed to the Authority, that states whether in the auditor's opinion those accounts (and, if applicable, the reconciliation information mentioned in paragraph 4) fairly present the financial position, financial performance, and cash flows of, or reasonably attributable to, each of the businesses referred to in Part A in accordance with the requirements of this condition; and
 - (c) deliver those accounts and the auditor's report required under paragraph 19 (b) of this licence condition to the Authority as soon as is reasonably practicable, and in any event before their publication of such accounts under Part I below and not later than 31 July following the end of the financial year to which the regulatory accounts relate.

Part G: Terms of appointment of the appropriate auditor

20. For the purposes of Part F above, the licensee must, at its own expense, enter into a contract of appointment with an appropriate auditor which includes a term requiring that the audit of the licensee's regulatory accounts must be conducted by that auditor in accordance with all such relevant auditing standards in force on the last day of the financial year to which the audit relates as would be appropriate for accounts prepared in accordance with the provisions of Part 15 of the Companies Act 2006.

Part H: Agreed upon procedures for the appropriate auditor

21. The licensee must, at its own expense, enter into a contract of appointment with an appropriate auditor for the completion of agreed upon procedures that are to apply for the purposes of enabling that auditor to review:
- (a) the licensee's compliance with its obligations in respect of the prohibition of cross-subsidy and discrimination generally and, in particular, under such of

- standard or standard special conditions A6 (Conduct of transportation business), A35 (Prohibition of Cross-Subsidies) and, to the extent applicable, D19 (Non-discrimination in the provision of metering activities) of this licence as specifically impose such prohibitions; and
- (b) the statement that by virtue of Part D above is required to be included in the regulatory accounts concerning the bases of charge, apportionment, and allocation applied by the licensee in relation to those accounts.
22. The contract of appointment must require that the agreed upon procedures are conducted in relation to each financial year and that the licensee will arrange for the appropriate auditor to address a report to the Authority by 31 July following the end of each such year which:
- (a) states that he has, in a manner consistent with the relevant auditing standards, completed the agreed upon procedures issued by the Authority in respect of the financial year under report; and
- (b) sets out his findings.
23. If the Authority is satisfied that the appropriate auditor's report submitted under this Part H demonstrates that the licensee has complied with the obligations to avoid discrimination and cross-subsidies imposed on the licensee, the report shall be deemed to represent the results of an audit of those obligations.

Part I: Publication and provision of regulatory accounts

24. Subject to paragraph 26, and unless the Authority after consulting with the licensee otherwise directs, the licensee must publish its regulatory accounts (excluding the statement required to be included in them by virtue of Part D above and any other information agreed by the Authority to be confidential):
- (a) as a stand-alone document in accordance with this condition;
- (b) by 31 July after the end of the financial year to which the accounts relate;
- (c) on, and in a way that is readily accessible from, its website or that of an affiliate or ultimate controller of the licensee provided that link is both clear and readily accessible; and
- (d) in any other manner which, in the opinion of the licensee, is necessary to secure adequate publicity for the accounts.
25. The licensee must provide a copy of the regulatory accounts free of charge:
- (a) to Citizens Advice or Consumer Scotland (or any successor entity), no later than the date on which the regulatory accounts are published; and

- (c) to any person requesting a copy.
26. The licensee is not required to publish regulatory accounts for the LNG storage and LNG import or export facilities businesses, metering business or the meter reading business if such publication would or might seriously and prejudicially affect the interests of the licensee, or of any ultimate controller of the licensee, or of any subsidiary of any ultimate controller.
27. Any question arising under paragraph 26 as to whether a person's interests would or might be seriously and prejudicially affected is to be referred (except in so far as the Authority consents otherwise) to the Authority for determination.

Part J: Interpretation and definitions

28. Any consent by the Authority given in relation to a provision of this condition may be given in relation to some or all of the requirements of the relevant provision and subject to such conditions as the Authority considers appropriate or necessary having regard to the purposes of this condition.
29. If the Authority, having particular regard to any representations received from the licensee and other persons about the extent to which there is competition in metering or meter reading, considers it appropriate that references to either:
- (a) the metering business and meter reading business; or
 - (b) the LNG storage business; or
 - (d) LNG import or export facility activity,
- should be deleted from this condition, then those references will cease to have effect in this condition from the date or dates specified in a notice published by the Authority for that purpose.
30. The requirement under paragraph 9 of this condition for the licensee to include a business review, a corporate governance statement, and a directors' report in its regulatory accounts is to be read as if the requirement applied to the licensee as a quoted company, whether or not it is such a company, such that:

31. For the avoidance of doubt, the licensee should prepare regulatory accounts for the financial year commencing on or after 1 April 2012 in accordance with the licence condition in force as at 31 March 2013.
32. For the purposes of this condition:

3. Nothing in this condition shall require the licensee to employ more staff or to maintain any stock of spares or equipment more extensive than it would otherwise employ or maintain for the purposes of its transportation business.
4. Any dispute over the terms of any offer made pursuant to this condition may be referred to the Authority for determination at the request of the licensee or the person named in the direction referred to in paragraph 1.

Standard Special Condition A42: Requirement for sufficiently independent directors

1. Subject to paragraph 11, except and to the extent that the Authority consents otherwise, the licensee must ensure that at all times after a date which is the later of:
 - (a) 1 April 2014; and
 - (b) 12 months after this condition comes into effect in respect of the licensee, it has at least two non-executive directors who meet the criteria set out in paragraphs 2, 3, and 5 below. In this condition such directors are referred to as “sufficiently independent directors”.
2. A sufficiently independent director must:
 - (a) be a natural person;

 - (a) an employee of the licensee; or
 - (b) a director or employee of any associate of the licensee.
4. The reference to ‘director’ in sub-paragraph 3(b) does not include appointment as a non-executive director of:

The licensee must notify the Authority of the names of its sufficiently independent directors within 14 days of the later of the two dates referred to in paragraph 1 and must notify the Authority within 14 days where any new directors are appointed to fulfil the obligation in paragraph 1 of this condition.
8. The terms of appointment of each sufficiently independent director must include a condition stipulating that both the licensee and the appointee will use their best endeavours to ensure that the appointee remains sufficiently independent during his term of office, having particular regard to the criteria set out in paragraphs 2, 3, and 5.
9. A term of appointment for a sufficiently independent director may not be for longer than eight years, but an individual may be reappointed thereafter provided that he continues to meet the criteria set out in paragraphs 2, 3, and 5.
10. The licensee must notify the Authority in writing within 14 days if any sufficiently independent director is removed from office or resigns, giving reasons for the removal or (to the extent that they are known to the licensee) the resignation. For the purposes

of this requirement, the reasons for a resignation may, if appropriate, be stated to be personal reasons.

11. If at any time the licensee has fewer than two sufficiently independent directors because of a removal or resignation or other reason (including death or incapacity), the licensee must use its reasonable endeavours to ensure that a new director is, or new directors are, appointed to fulfil the obligation in paragraph 1 as soon as is reasonably practicable to bring the number of sufficiently independent directors up to at least two.
12. Where the holder of this licence owns one or more relevant gas transporters, the licences for which are held in a single legal entity, references in this condition to “licensee” shall mean that single entity.

Standard Special Condition A46: Not Used

Standard Special Condition A47: Charging of Gas Shippers – Domestic Infill Premises

1. Where the licensee makes charges in accordance with Standard Special Condition A4 (Charging – General) the licensee may include a surcharge subject to the following conditions,
 - (a) from 1 January 2004 the maximum surcharge is 0.3412 pence per kWh of gas transported adjusted on 1 January of each subsequent year by a factor of $\left(1 + \frac{RPI}{100}\right)$. RPI means the value published in October of each year by the Authority and calculated as the percentage change (whether of a positive or a negative value) in the arithmetic average of the retail price index determined in respect of April to September (both inclusive) of the current calendar year and the arithmetic average of the retail price index determined with respect to April to September of the previous calendar year;
 - (b) the surcharge has a maximum duration of 20 years from when the surcharge to the relevant shipper first falls due;
 - (c) the surcharge may only apply to existing domestic premises which were in existence for not less than 6 months prior to the provision of the gas main extended specifically for connection of those premises, and which have not previously received a supply of natural gas;
 - (d) the licensee has, on request to provide a connection by the owner or occupier of the premises, extended a gas main to specifically connect the premises;
 - (e) the licensee must notify the Authority of the specified amount and specified duration as soon as reasonably practicable but in any event no later than 28 days prior to any such charge falling due; and
 - (f) the Authority may direct the licensee not to make the surcharge within 28 days of the notification in (e) above.

Standard Special Condition A48: Last Resort Supply: Payment Claims

1. This condition sets out the circumstances in which the licensee shall increase its transportation charges in order to pay any gas supplier (a “**claimant**”) or LRSP Permitted Assignee a last resort supply payment in accordance with the terms of a valid claim.

2. The following provisions apply where the licensee receives a valid claim for a last resort supply payment.

2. Where the licensee receives a valid claim it shall, during the relevant year or other subsequent years (as specified in the valid claim), make a consequential increase to its transportation charges during that year which relate to the conveyance of gas to premises (and secondary sub-deduct premises to which gas is conveyed as contemplated by sub-deduct arrangements) to such an extent as it reasonably estimates to be appropriate to secure that such consequential increase in its revenue equals the specified amount for each year as set out in the valid claim.

- 3A Where the licensee receives a valid claim that contains provision for the payment of the specified amount over a period longer than a year, the amount by which the licensee makes a consequential increase to its charges in each subsequent year pursuant to paragraph 3, shall be directed by the Authority no later than 31 December in the year prior to the start of the year in which the licensee will make a consequential increase in its charges or, where no direction is made, shall be the amount specified for the year in the valid claim.

- 3B Where the licensee, in a current year, receives a valid claim, that contains provision for the licensee to adjust the payment of the specified amount for the remainder of that year, the amount by which the licensee shall make a consequential increase to its transportation charges for the remainder of that year pursuant to paragraph 3, shall be directed by the Authority no later than 31st July.

4. The licensee shall, during, or as soon as practicable after the end of, the relevant year or other subsequent years (as specified in the valid claim), pay to the claimant or LRSP Permitted Assignee in accordance with the valid claim by quarterly or monthly instalments (as specified in the valid claim), the amount of that consequential increase in revenue mentioned in paragraph 3 and paragraph 3A where relevant to the extent that it does not exceed the specified amount for that year. Any payment of an amount to an LRSP Permitted Assignee shall discharge any requirement to pay that amount to the claimant.
5. Subject to paragraph 7A, if the amount paid under paragraph 4 is less than the specified amount for that year, the licensee shall in the following year –
 - (a) pay (in accordance with any directions given by the Authority) the shortfall together with 12 months' interest thereon; and
 - (b) increase the charges referred to in paragraph 3 during the year following the relevant year to such extent as it reasonably estimates to be appropriate to secure that the consequential increase in its revenue equals the amount of that shortfall together with 12 months' interest thereon.
6. If the amount of the consequential increase mentioned in paragraph 3 exceeds the specified amount for that year, the licensee shall, during the following year, decrease the charges referred to in paragraph 3 to the extent that it reasonably estimates to be necessary in order to reduce its transportation revenue for that year by an amount equal to the excess together with 12 months' interest thereon.
7. Any question whether any estimate for the purposes of paragraph 3, 5 or 6 is a reasonable one shall be determined by the Authority.
- 7A. Where the valid claim is to be subject to adjustment in accordance with paragraph 3A, the licensee shall notify the Authority of any difference between the specified amount for that year and the amount of the consequential increase made in respect of the same

year in sufficient time for the Authority to take that difference (as it would have applied under paragraphs 5 or 6) into account in directing the specified amount to be paid by the licensee the following year pursuant to paragraph 3A. Paragraphs 5 and 6 will not apply where the Authority has taken into account such difference in its annual direction under paragraph 3A.

8. The licensee shall not enter into any transportation arrangements which do not permit variation of its transportation charges in pursuance of this condition.
9. The provisions of this condition shall have effect notwithstanding that the licensee has not provided any notice required by paragraph 2 of Standard Special Condition A4 (Charging – General).
10. In calculating the licensee’s transportation revenue during any period for the purposes of a price control condition any increase or decrease in revenue attributable to the licensee’s compliance with this condition shall be treated as if it had not occurred.
11. The licensee shall prepare, in respect of each year in which it increases or decreases charges in pursuance of paragraph 3, 5 or 6, a statement showing –
 - (a) the aggregate amount of its revenue derived from increases in charges in pursuance of paragraph 3;
 - (b) the aggregate amount of its revenue derived from increases in charges in pursuance of paragraph 5;
 - (c) the aggregate amount of the decrease in its revenue resulting from decreases in charges in pursuance of paragraph 6, and
 - (d) in the case of each last resort supply payment, the aggregate payments to the claimant made in respect of the year in question (whenever those payments were made).
12. The licensee shall give the statements referred to in paragraph 11 to the Authority within the first 4 months of the year following that to which they relate.

13. On giving the statement mentioned in paragraph 11(d) to the Authority, the licensee shall publish it in such manner as, in the reasonable opinion of the licensee, will secure adequate publicity for it.
14. Where the licensee receives more than one claim for a last resort payment, this condition (other than sub-paragraphs 11(a), (b) and (c)) shall apply separately as respects each separate claim but in so far as it results in changes to the licensee's transportation charges it shall have the cumulative effect of such separate applications.
15. (a) For the purposes of this condition –
- “**last resort supply direction**” and “**last resort supply payment**” have the meaning given to them in standard condition 1 (Definitions for standard conditions) of the standard conditions of the gas suppliers licence;
- “**LRSP Permitted Assignee**” means a person to whom a gas supplier has assigned or otherwise disposed of all or any of its rights in relation to or arising from a Last Resort Supply Payment with the Authority's consent.
- “**price control condition**” means any condition of the licence which places a monetary limitation on the transportation charges which may be levied or the transportation revenue which may be recovered by the licensee during a given period;
- “**relevant year**” means, in relation to any valid claim –
- (i) where the claim was received by the licensee by the 31st December the following year after the valid claim was received;
 - or
 - (ii) where the claim was received after the licensee by the 31st December the second year after the valid claim was received;

So, for example, if a valid claim was received before 31 December in year 1, the relevant year would be year 2. If a valid claim was received

after 31 December in year 1, the relevant year would be year 3.

“**specified amount**” means the amount specified on a valid claim (or, where the context requires, the amount specified on a valid claim in respect of a particular year) together with any adjustment made by the Authority in accordance with paragraph 3A for that year;

“**valid claim**” means a claim for which a claimant has been given a consent by the Authority pursuant to standard condition 9 (Claims for Last Resort Supply Payment) of the standard conditions of the gas suppliers licence; and

“**year**” means a period of 12 months beginning on 1st April.

- (b) The interest referred to in paragraph 5, sub-paragraph (a) and paragraph 6 is simple interest for the period commencing with the date on which the claim was received by the licensee and ending with the date which is 61 days before the start of the relevant year, except where that period is of 30 days or less, in which case no interest shall be payable.

16. For the avoidance of doubt, the arrangements for administering increases to transportation charges in order to compensate any gas supplier which claims for losses that it has incurred in complying with a last resort supply direction, under the provisions of this condition, shall be administered by the Central Data Service Provider (as defined in Standard Special Condition A15 (Central Data Services Provider), unless the Authority otherwise consents in writing.
